

August 19, 2009

Dear Parents,

Welcome back and thank you for choosing to send your child to Holy Spirit School. We are ready to begin our year teaching your child by meeting their individual needs of growing spiritually, academically, and socially.

As we begin our new school year, we are proud to announce that each of us will have the opportunity to help educate your child. Working with our school theme of "Teaching and Learning with Heart," we each chose a subject we would love to teach this year: Mrs. Welty- English and spelling Mrs. Eastman- Science, Mrs. McMahon- Social Studies, and Mrs. G- Math. All students will travel with their homeroom to each Intermediate classroom for the different subjects. Each homeroom teacher will teach their own religion. Given the opportunity to teach a subject we love will enable us to go deeper with our subject matter which should be beneficial in teaching the Indiana State Standards. We plan on preparing and practicing with the students the procedures needed to transition from self contained to departmentalized classrooms.

Again, thank you for entrusting us with the education of your children. We feel truly blessed to be a part of the Holy Spirit community.

God bless you,

Mrs. Welty, Mrs. Eastman,
Mrs. McMahon, and Mrs. Gutzwiller
